Welcome to Safetab Life Science

In 2005, Safetab was born out of the passion for making superior quality medicines affordable and available globally. To that end, we leverage our scientific talent, engineering excellence and state-of-the-art facilities to develop and manufacture pharmaceutical nutraceutical products. We are a WHO-GMO approved Contract Development and Manufacturing Organization (CDMO) with 400+ licenses. We specialize in non-beta lactam based pharma products, nutraceuticals, food supplements and topical applications.
