Welcome to SAH FRAGRANCES PRIVATE LIMITED

Started in the year 1910 by Sheikh Abdul Hakim, in the small town of Kannauj, a city in north India known as India's perfume capital, on a very modest scale with limited resources. He had inherited Attar manufacturing experience by his father Sheikh Abdul Lateef. Late Sheikh Abdul Hakim was a man of principles and hardworking and continued to develop fragrance business from north to south India. The business proposed a steam distillation plant, which was set up in Hyderabad (south India) for the manufacture of essential oils and had associated with nearly all the large end users. Then joined by his eldest son Sheikh Mohammed Siddique, a man of wide vision and with his ability and experience of marketing, SAH Fragrances spread from India to foreign, Middle Eastern and African countries. Today, the business is steered by the fourth generation, strictly following the strategy, that is "High quality products at competitive price", laid by its founder Late Sheikh Abdul Hakim. Through the decades of continuous research and experience in the art and technique of extracting pure oils from natural substances, SAH assures you of nature at its best and to combine tradition with modernity SAH continues to introduce new fragrances. With our more than 10 decades of experience we have served various industries in India and abroad for all fragrance needs. Our products are now being used in significant quantities in Cosmetics, fragrances, Sweet supari (Mouth fresheners), Incense sticks (Agarbattis) and in Bakhoor, Mamool and Dakhoon.
