Welcome to Sarvani labs

Plant at Sarvani Labs Pvt Ltd is designed for compliance with GMP norms to produce best quality products. All our production processes are well developed and thoroughly tested prior to production to ensure best quality to our customers. As a part of our meticulous QA/QC testing practices all raw materials are tested by Sarvani labs Pvt Ltd team of highly qualified chemists to ensure the specifications and standards are met before they are cleared for use in production. Final product testing is rigorous to ensure product quality. Periodical training of our employees in the respective areas of work is performed to strictly implement GMP practices. World class production facility with top notch equipment and well researched operational strategies make us the best in delivering exceptionally good quality products on time at competitive prices. At Sarvani Labs Pvt Ltd, we're dedicated to delivering the best products, guided by 100+ years of domain expertise. Sarvani labs aims to pioneer the animal health industry.
