Welcome To Septodont Healthcare India Pvt Ltd

Septodont has introduced an innovative range of products in dental restorative materials. Following the introduction of Biodentine®, a proprietary breakthrough dentine replacement solution which benefit from more than a hundred of publications worldwide, we recently launched Bioroot RCS® a bioactive material for root canal sealing with demonstrated bioactive features. Septodont is now engaged in the development of a range of bioactive material with exciting applications in restorative, endodontic and regeneration segments based on its proprietary 'Active Biosilicate Technology™' platform.
