Welcome to Standard Pharmaceuticals

It is an Indian pharmaceutical brand with a proud history of being more than 60. This company cares for patients who require excellent drugs for different therapeutic segments. It manufactures its products in West Bengal at state-of-the-art facilities while conforming to strict quality standards. These medicines are produced in cGMP-compliant environments, where the company's core focus lies on patient safety. In addition, SPL also holds the ISO 9001:2008 certification, which is yet another incentive for more excellence. While the reputation of Standard Pharmaceuticals is so powerful and reliable, it is more of an innovative name in healthcare now.
