Welcome to Sugandh Vyapar

The Capital of Harshwardhan Kannauj took a turning point in making in the year of 1809 processing and blending of perfumes in a scientific method by M/S M.D.S.R, We take an opportunity to introduce ourselves as one of the oldest manufacturer / processor of Indian Perfumes at kannauj, the city of traditional Indian attars since 1809 to serve our customers with quality perfumes and allied products. Nearly 300 years ago when the Mughal Empress Noor Jahan was having a bath in her shaahi hamaam, little did she realise that she was discovering the most expensive and exotic attar – Rooh-e-Gulab. Legend has it that when she went to have a bath; she noticed an oily layer over the water kept overnight with crushed rose petals, which when distilled became the famous rose perfume.
