## Welcome to Sugen Life Sciences

Sugen Life Sciences (SLS) is a Contract Research Organization with key focus on Pre-Clinical safety, Efficacy, Toxicology, and Clinical research services to biopharma industries and research organizations. All studies are conducted in accordance with the requirements of the national and international regulatory guidelines like OECD, Schedule Y, FDA, EPA, ICH-GCP. We deliver exceptional quality services on time. We maintain highly effective communication with our clients, and thus accurately provide the desired services in biochemistry, pharmacology, toxicology and natural health products. We provide comprehensive drug testing services involving Laboratories-based studies, vertebrate animal models and clinical studies, under regulatory compliance. We follow Good Laboratories Practices (GLP), current Good Manufacturing Practices (cGMP) and Good Clinical Practices (GCP).
