Welcome to Suraj Laboratories Pvt. Ltd.

Suraj Labs is a pure play pharmaceutical bulk drug manufacturing company based in India. The company is promoted by experienced pharmaceutical professionals having thorough understanding of chemistry, manufacturing, engineering, and regulatory requirements of the industry. Suraj Labs offers contract research, process development, process scale up and cGMP large scale manufacturing services required for bulk production of Custom Synthesis and Generic molecules such as Active Pharmaceutical Ingredients (APIs), Saleable Intermediates and Key Starting Materials(KSMs). Supported by a strong technical team, the company intends to manufacture the molecules with patent non-infringing processes. Suraj Labs intends to supply these products to its customers and thus indirectly serve the global population by delivering cost effective and quality medicines
