Welcome To Swisschem Healthcare

Established in the year 2015, "SwisscheM Healthcare (A Division of Swastik Life Sciences)", has very swiftly attained a top reputation in India’s burgeoning pharmaceutical market for providing Franchise on a quality range of Pharmaceutical Products. With Franchises set up in over 20 Indian States, our drugs have been highly recommended by the country’s best doctors, clinics and hospitals. As an honest organisation, we ensure that our drugs are processed with supreme quality ingredients. Moreover, our Quality Experts utilise high-tech testing techniques to check quality parameters of the drugs. We adhere to the Regulations & Guidelines laid out by the Indian Pharmaceutical Association. We also guarantee our customers that our drugs don’t cause any side effects. As an organisation, we pride ourselves on the quality of our products – which have earned the trust of India’s topmost doctors. To fulfil our commitments, we have set up an ultramodern infrastructural facility that is equipped with latest technology and machinery. Our facility is a pollution-free zone since we use oil-free compressor for production purposes. To keep pace with global standards, we are constantly looking to make technological upgrades and enhancements. We have promised to work with only qualified chemists and pharmaceutical vendors who have been shortlisted on the basis of their credibility and past track record. We are guided by "Mr Vaneet Jain", our Managing Director and Mentor. His knowledge of the Pharma Industry and close ties with Hospitals has helped our organisation set up a huge client base. Like him, our workforce too is determined to save lives and rid the nation of infections..
