## Welcome To Therachem Laboratories

Established in 1959 therachem has grown into a large corporate supplying its range of pharmaceuticals generics and formulations to regulated and unregulated market around the world. therachem is the founder member of indian drug manufacturer's association (idma) which is the only recognised association in medical field in mumbai, india. we have invested significant energy and efforts in registering its brand and formulations in different countries and its products find their presence in pharmacies in many countries. our manufacturing unit is at mumbai. therachem has the expertise and manufacturing technology for effervescent dosage formulations. we have also invested significantly into setting up research facilities for both process innovation as well as basic research. with international tie-ups, growing ability to manufacture and aggregate large volumes of generics and formulations in all dosage forms, the company is set to sustain rapid growth.
