Welcome To Unichem Labs Limited

Promoted by a pioneer of the Indian pharmaceuticals business, Mr. Amrut Mody, Unichem Laboratories has grown to become one of India's most respected pharmaceutical companies. It is committed to delivering better health through superior products. By combining strategic research and in-depth industry knowledge, Unichem aims to transform itself into a global pharmaceutical drug company with an increasing focus on cutting-edge research and developed markets. With formulations forming the core of Unichem's business, the company also manufactures active pharmaceutical ingredients (APIs or bulk actives). In addition, it has several pharma products that address relevant and growing therapeutic areas like gastroenterology, cardiology, diabetology, psychiatry, neurology, anti-bacterials, anti-infectives and pain management among others.
