Welcome to Vanmed Pharmaceuticals

Vanmed Pharmaceuticals was established in 2016, with the intent to provide the best quality medicines and health services in India. From the outset, the founders were committed to maintain the highest possible quality standards for all their products. All Vanmed products are manufactured at facilities having the highest quality certifications issued by the WHO and the Government of India. In addition to ensuring the best quality of medicines and formulations, the founders also have pledged that 1% of all earnings from Vanmed Pharmaceuticals will be donated to charity. The founders also continue to support, charitable efforts undertaken by others, including volunteering every week at a free medical clinic in Noida, supporting monthly wellness camps organized by the Noida Diabetes Forum. In addition, twice a year, Vanmed's founders participate in free medical camps conducted in Uttarakhand. They will continue to support these and also other such noble endeavors in support of the broader national objective of the health and welfare of all Indians.
