Variety Pharmaceuticals

Variety Pharmaceuticals has invested substantially to make the manufacturing facility GMP compliant. We have the capabilities to produce dosage forms in sterile surroundings, covering all therapeutic segments. Highly qualified personnel man the Production and Quality Control departments and also in Qualified and experienced technical team in the areas of manufacturing, quality control, quality assurance, research and development for all range of products. Our factory has highly integrated production facilities and capabilities to manage flexible production lines. This enables the production unit to undertake contract manufacturing assignments in addition to our regular in-house production requirements.
