Welcome to Vasista Life Sciences Pvt. Ltd.

Vasista Life Sciences Pvt. Ltd., is established in the year 2010 in Hyderabad, India. Vasista Life Sciences Pvt. Ltd., an aspiring organization emerged with the idea to cater to the needs of Bulk Drug Intermediates, Metal reagents, Borane reagents, Grignard reagents, and Fine Chemicals to the manufacturing Industry by serving both Domestic and International customer needs. Vasista Life Sciences lead, nurtured, and cared by a highly dedicated professional core team with more than 25 years of experience in the Bulk Drug Industry. Vasista Life Sciences is poised to make its mark in the Global Bulk Drug market with its unique & focused business verticals. To meet the demands of the market and expand the business in different verticals, in the year 2019 a new manufacturing unit is started on the name of Vasista Pharma Chem Pvt. Ltd., with an aim to manufacture high quality Active Pharmaceutical Ingredients and its intermediates with state of art facility requirements and meeting the national and international regulatory requirements w.r.t to safety and quality. In the same year a new R&D centre is also established to meet new API & Intermediates development activities with an aim to develop/support new molecules and to work with all major companies across the Globe as a contract research organization.
