Welcome to Vatson Healthcare

Healthcare Vatson was established in 2020 as a Partnership Firm with a clear vision of providing reliable and effective healthcare solutions. From the very beginning, we were involved in the manufacturing, wholesaling, and service provision of a wide range of pharmaceutical and nutraceutical products. Our specialisation lies in producing pharmaceutical syrups and nutraceutical formulations and offering third-party manufacturing services for both allopathic and ayurvedic segments. The manufacturing processes at our facility are accompanied by stringent quality control measures to guarantee product safety, consistency, and efficacy. We only partner with the most reliable raw material suppliers and adhere to industry-approved standards at each step of production. It is by our understanding of the significance of prompt delivery and open business practices that we have been able to establish long-term affiliations with our customers, which is the case at Vatson Healthcare. Additionally, we provide personalised third-party manufacturing solutions based on customer needs, including assistance with product formulation, packaging, and labelling. Our Ayurvedic third-party manufacturing service is poised to tap the rising demand for herbal and natural healthcare products. A committed team and a customer-centric approach are paramount to our ability to satisfy market demand efficiently. Our goal is to progress gradually, but quality, trust, and customer satisfaction will always remain our core values. Vatson Healthcare has already taken steps to expand its product range and service capabilities so that healthcare professionals and businesses throughout

India can benefit from us.
